ABOUT *us*

The root company for Bional was founded in 1967, and over the years the Bional name became a well-known brand in local areas. Expanding our production capacity and working on exportation strategies, the Bional name was carried to international projects across many continents.

Today, with a factory area of 400.000 square feet, making it one of the largest custom furniture manufacturing facilities located in Turkey, and with over 50 years of experience in the furniture and construction industry, we continue to provide for global hospitality and residential projects with fit-out solutions.

Having a presence in the US, and working in collaboration with showrooms and dealerships, we have given home-owners customized closet and cabinet spaces such as Reach-In Closets, Walk-In Closets, Entertainment Center, Pantry, Game Room, Wall Bed, Wine Bar, Work & Study Place, Garage Storage, Kids & Nursery Room, Kitchen Cabinets and Vanity Cabinets. By having become a trusted brand in the North American regions, we will continue to provide quality products for our customers with great care and attention to details.

Meet the Team

Our team is comprised of experienced designers, industrial engineers, talented workforce, logistic officers, quality control and production specialists, using the latest technology and machinery.

Our cumulative knowledge and a well-coordinated organization system enabled us to work on creative ideas, understand architectural concepts and the flexibility of materials, and meticulously inspect production from raw material procurement till delivery.

Being a family-owned business, every member of our company has turned into a larger family, striving towards success.

We would like to welcome you to our family.

Milestones

Dozens of local projects were completed, enabling a vast knowledge and experience in the furniture and construction industry, and creating relations with high quality suppliers and businesses.

1980

A new **55,000 square** feet factory was opened to provide in accordance with new demands, and exportation to international projects for hotels, resorts, residences, housing projects, institutions, hospitals, centers, retail stores and urban developments.

2003

More than 150 projects consisting of luxury buildings and brand hotels both globally and in the US were completed, and a new factory of 400.000 square feet was opened due to increase in demands.

2015

1967

The first wood workshop was established and started working on mid-scale furniture projects.

1993

The first 10.000 square feet factory was opened. Fit-out services for larger-scale projects commenced and local recognition of the Bial brand increased.

2011

Entered into the North American market to provide projects and homeowners with customized closets and cabinets, and upholstered products.

2021

Launching of Bial Showrooms in the US, expanding its custom closet and cabinet services and working with new dealerships. Attending meetings and exhibitions with furniture and hardware manufacturers. Taking place in the KBIS 2022 show and becoming a yearly exhibitor.

Our Mission

Considering the market and the needs of our customers, our priority is to produce not only with great care and craftsmanship, but to also stay in accordance with international quality standards.

By providing the best products with reasonable prices without compromising its quality, our mission is to have satisfied customers sharing their positive experiences with us and their family and friends, giving us greater motivation to move forward and improve on valuable feedback.

In addition to these goals, we also aim to become the first brand that comes to mind in the sectoral scope, and to also maintain the principle of protecting natural resources, using energy efficiently, and continuing our business in healthy, safe and ergonomic environments, as well as having objective and transparent approaches to providing solutions.

1 Design

Your request starts with a consultation service with one of our expert designers. The measurements of your closet space will be taken, and within 2-3 workdays, you will receive a proposal with a 3D design of your closets or cabinets.

2 Produce

When you confirm the final design and proceed with your payment, your closet will be taken into production. Once production is complete, it will undergo quality control before loading.

3 Deliver

Your cabinet will be delivered to your designated address within 8 to 10 weeks, and if requested, an installation team will arrive to your home.

Our Process

In-home Consultation

In an In-Home consultation, experts will visit you according to your requested date and time and will consult your needs at the comfort of your own home. The consultation period can be an hour-long, as they will take measurements of your closet space.

Virtual Consultation

In a Virtual consultation, you will be required to fill an online form and provide your cabinet space measurements (when your project is approved, a team will arrive for final control). Afterward, you will have an online meeting with one of our designers for additional inquiries.

12

Modern.

stylish, minimalist style

Characterised by frameless, slab-fronted cabinets, our Modern kitchens offer seamless functionality alongside a stylish, minimalist look and a selection of finishes ranging from sleek high-gloss to wood-effect.

Varnished Solid Wood Fluted

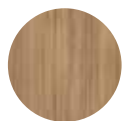

You are kind to those who understand you. And Tip-on (push to open) system understands you. You can open it by touching it gently and close it back with a gentle push.

Senna

Features

CEMENT
GREY

TEAK

With simple touches made to your kitchens, you can get classy and elegant designs, creating an organized space for you to enjoy every moment, and feeling like a Michelin star chef at the comfort of your own home.

Tip-on doors will also enable you to access everything easily and swiftly, providing you with a highly efficient kitchen area.

Box/Case: Melamine
Faced 3/4" MDF
Backers: Melamine Faced
5/16" MDF

Doors: Lacquer
Painted & Melamine
Faced 3/4" MDF

For opening the door, your smooth touch is enough, and for closing the door you just need to press the button on the side and your smart technology will do the rest.

Considering sustainability

At Bional, our priorities also consists of working efficiently as well as keeping the environment in mind, keeping informed about climate change and shifting our focus to reduce our carbon footprint for future generations as well as the generations of today. With the skillful workmanship and usage of the materials we purchase and manufacture, we aim to enable sustainability to become a part of our lives, your lives.

Every wood that will take place in your kitchen is sourced responsibly and manufactured in our factory with careful usage of electricity, and any timber waste is repurposed or reused for heat management and additional parts in the workplace. We partner with responsible suppliers in order to protect the values of our company. With this mindset and set of values, your kitchen will be produced to last long and make you feel better knowing that it's from a place that upholds its values, and designs and crafts with care for the environment.

Our Door Options

Your closet is the memory holder of your home, where you pack away your clothes and shoes in which you wore to special occasions, events and time spent with loved ones. With a large variety of models, colors and finishes, give your closet the look that represents you the best.

Accessories

What makes a mountain? Maybe a pile of rocks. Or what about the ocean? Many drops of water that have come together. As you can see, it's the details in the formation of something that gives it its meaning.

In our kitchen cabinet designs, this is where accessories come in. The small touches they give adds not only quality and usability to your cabinets, but also aesthetic value.

From smart storage solutions to easily accessible areas, you'll be able to not only keep everything organized and tidy, but this will also bring clarity and joyfulness into your life by having everything working with perfection.

A kitchen is not only a place to cook and eat food, but also a place to create fond memories and spend time with loved ones. That is why a good design, clean surfaces, long lasting hardware and accessories, proper lighting and ease of access will help you to create those memories even on a minute level.

Corner Cabinet Solutions

So that you can use every inch of your kitchen

Corner Pull Out Shelf

Take advantage of your blind corners in your kitchen by installing the corner pull out shelf, for blind corner cabinets so you can save more space.

Revolving Shelf

Turn corner storage into easily accessible shelf-space with this revolving shelf set. These full circle shelves make good use of all the space in the cabinet for storage.

85

Base Cabinet Solutions

For more meaningful and easy-to-use solutions in your kitchen.

Pull Out Waste Bin

Easily access your waste bins and then tuck them away when not in use with this pull out waste bin set.

Baker's Tray Organizer

They say variety is the spice of life, but what they don't say is how one might keep them organized.

Pull - Out Spice Rack

No matter what size your kitchen is, staying organized can be challenging and thanks to our genius pull out cutting board, baking pan, and cookie sheet tray organizer, you can make sure your bakeware and other items are always neatly organized.

86

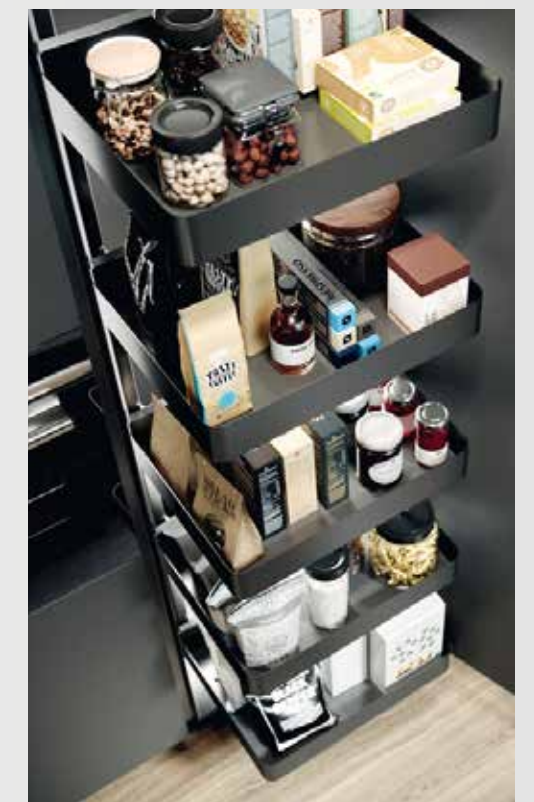

Tall Cabinet Solutions

For kitchens that need more and larger spaces

Pull Out Pantry Unit

This practical pull-out brings out the best in narrow tall cabinets. It offers a space-saving solution which is easily opened with one pull which reveals the entire contents of the cabinet.

Swing Out Pantry Unit

Pull out pantry unit mean all the contents of your cupboard are brought forward but you might only use some of the produce occasionally. These individual pull out racks allow you to just access the required item.

Additional Solutions

Small but useful solutions that you can add to the kitchen according to your desire.

Cutlery Organizer

For Blum Tandembox Solution Suggestions

Cutlery trays are elegant and high-value insert systems for drawers with an inspiring material mix of translucent plastic trays and Aluminium connecting profiles. Due to their sophisticated clip connection they can flexibly adapt to different drawer widths.

Drawer Inside Organizer

For Blum Tandembox Solution Suggestions

This metal box system opens a world of design possibilities. The removable containers are perfect for setting the table or tossing in the dishwasher. Full extension runners make finding what you need easier.

Small but useful solutions that you can add to the kitchen according to your desire.

Pot and Pan Storage

For Blum Tandembox Solution Suggestions

Useful pot and pan storage is created with kitchen pan drawer dividers to fit drawers, ensuring convenient pot lid storage with everyday utensils close at hand.

Inspired
